ABSTRACT

Listed in the directory are 1343 inpatient facilities for the mentally retarded in the United States. It is explained that the facilities have been compiled from the Master Facility Inventory developed by the Division of Health Manpower and Facilities Statistics in the National Center for Health Statistics. Listings are arranged alphabetically by state, city within state and name of facility within city. In addition, the following information is usually provided: address, ownership, number of beds, and age and sex accepted. (CL)

DIRECTORY
of Inpatient Facilities for the Mentally Retarded

INTRODUCTION

The Directory of Inpatient Facilities for the Mentally Retarded is intended to serve as a source of information for the names, locations, and admission policies of all inpatient facilities for the mentally retarded (MR) in the United States. The 1,343 MR facilities listed in this directory are arranged alphabetically by State, city within State, and name of facility within city. All data presented here were obtained from the 1973 Master Facility Inventory Survey.

Background

The Division of Health Manpower and Facilities Statistics in the National Center for Health Statistics conducts a national statistical program of data collection from all inpatient health facilities. This data system, called the Master Facility Inventory (MFI), is updated frequently to maintain its usefulness as a data source. The information collected from inpatient health facilities includes their names, addresses, and such basic characteristics as type of ownership, number of employees, and number of patients.

The MFI is supplemented by the Agency Reporting System (ARS) which locates new facilities. The ARS collects information on new facilities and compares this information to that of the MFI to avoid duplicate listings. New nonduplicative facilities located by the ARS are then added to the MFI. The MFI survey of all inpatient facilities also identifies those facilities that are no longer in existence and they are eliminated from the MFI.

Limitations of Data

It is believed that this directory presents a comprehensive and accurate listing of all inpatient facilities for the mentally retarded in the United States. Indeed, a painstaking effort has been made to insure the completeness and accuracy of the data presented here. Nevertheless, we encourage those who use the directory to inform us of omissions or errors in content and to suggest changes or additions in the Directory's format. The centerfold contains preaddressed post cards for your use in informing the Center of any additions, corrections, or suggestions for this directory.
